

Mr. Mostafa Ramzy is Senior Project Management and Enterprise Risk Management Expert who Won the 2015 Global Risk Award in Building Risk Management Capabilities provided by The Institute of Risk Management and the Winner of the Middle East & Africa (MEA) 2015 Risk Manager of the Year Award with over 18 years of experience in various sectors including exhibition, financial, governance, hospitality, energy, operations, engineering, construction, consultancy, academic/training, coordination and project management. Having joined the Emirates Nuclear Energy Corporation (ENEC) in January 2009, Mostafa spent the past 10 years in developing and implementing the Enterprise Risk Management framework for ENEC and its subsidiaries, Barakah One Company (Financial Arm) and Nawah Energy Company (Operational Arm). Also, he has a considerable expertise in internal and external training. Mostafa delivered many presentations as a keynote speaker and facilitated master classes at many international conferences and forums on Project Management and Enterprise Risk Management. Currently the only Certified Trainer in Abu Dhabi for the ISO Risk Management Standard (ISO 31000). In addition to his role in ENEC, Mostafa is assigned as the MENA Regional Director for the Enterprise Risk Management Academy (ERMA) in Singapore. Prior experience includes working for Mace International and AECOM as a Planning Manager in mega projects including the Abu Dhabi National Exhibition Center and the Hyatt Capital Gate.
